Our governments suffer from separation between religion and country system…

Also as individuals, we suffer from separation between faith and deeds.

However, religion will win over all the ruling systems.

Now, the unanswered question is "have we done enough to our Islamic society?"

Serious disease

It is important to caution the Islamic society of the serious disease that destroyed many great things in Muslims. This disease on the individual basis it is called the separations between faith and deeds, while according to the country basis, it is called the separation between religion and country system. Actually, it is the same wrong concept of Salvation which is published by the Christian church that makes their religion restricted on believing without doing. The separation between religion and the state is that you are free to believe in any religion, but on the other hand, you have to follow the country laws that are prepared by human beings and may contradict your own religion. On studying these ill societies and systems, we find how much destruction was caused to these societies and systems. So, we have to take care of ourselves and keep away from this disease to protect our societies from this destiny. We deny being infected with this disease but on looking deep into ourselves the whole picture gets clear .Separation between faith and deeds is considered a separation in our personality in 2 different directions, the first is the one which cares for religion only and the other one cares for our attitude and the way we live. We have to ask ourselves if we really follow the Islamic approach. In some of our life aspects we follow the Islamic rules hundred percent while in other aspects we ignore the Islamic rules and in some other issues we vibrate between following and ignoring. Since, the rate of ignorance to Islamic rules varies from one person to another, our degree of illness also varies but the true issue is that all of us are infected with this disease that requires warning, prevention and treatment.

Life approach

Islam is a way of life, a constitution that God granted to us to organize all our life aspects; social or economic, materialistic or Spiritual, political or educational, even aspects related to cleanliness, appearance and health care. This is Islam as shown in the Qur'an and Sunnah, this is the Islamic concept that we have to understand and apply in our life. Let's think about our life we will find that Islam now is limited to some emotions, faith and basic worship acts such as praying and fasting. Islam is no longer the rule and approach of our life as we apply Islam in some aspects and ignore in others. To defend ourselves in this regard we say that it's difficult to apply Islam in all life aspects in our societies nowadays as the lifestyle around us is non-Islamic; Financial transactions in sales, purchases, banking, lending and investment and social, personal and family relations, all these and more are non-Islamic and depend on human's inclinations and desires and now we find that our defense is our disease. However, I can't say that we are equally infected but each of us is suffering this disease in a different degree of illness.

Void defense

Continuing defending ourselves, we say that Allah, the Lord of hearts, and He knows the sincerity in our intentions and hearts and "Allah does not charge a soul except [with that within] its capacity." and that's our best, we can't do more. In addition, God will forgive us for all our mistakes and we will turn in paradise, because Allah judges us for our intentions not deeds. Now, it's obvious that we are infected and controlled by this serious disease and it's clean that it has changed a lot in our personalities.

What did we do for our Islamic society?

Islam is the religion of truth and virtue it is the right religion, but most men don't understand. Islam is the religion that Allah favored for all humans to live according to its laws to satisfy God and reach our goal which is paradise.

Islam is the only religion as Allah said in The Holy Quran- Surat Al-Imran "Indeed, the religion in the sight of Allah is Islam "and He said also in the same Surah " If anyone desires a religion other than Islam (submission to Allah), never will it be accepted of him; and in the Hereafter He will be in the ranks of those who have lost" It is religion that will take the lead as stated in the Holy Quran and His Messenger Muhammad (PBUH) quotes. This religion will come over all human made rules and approaches. Islam will reach its aim if we participate or even if we didn't participate because it is a promise of God and it is the right. Now, we have to ask ourselves about our role as real Muslims towards our Islamic society.

Now, the question is if we will wait for God's decree and surrender what is going on around and satisfied with what we are?

Or we have to do effort and persevere - intending to be part of Islamic victory. Allah's victory is definitely coming, but what about us, which group we'll affiliated to at the Day of Judgment "The Day you shall see it, every nursing mother will forget her nursling, and every pregnant one will drop her load, and you shall see mankind as in a drunken state, yet they will not be drunken." "On the Day a man will flee from his brother - And his mother and his father - And his wife and his children, - For every man, that Day, will be a matter adequate for him." which group we'll be with the Day of Reckoning "[Other] faces, that Day, will show pleasure - With their effort [they are] satisfied - In an elevated garden, - Wherein they will hear no unsuitable speech." Will we be those who may God bless them, who are faithful to God worship. "Those who have believed and done righteous deeds and advised each other to truth and advised each other to patience." Who wrath of God on them and Allah will not speak to them or look at them on the Day of Resurrection, nor will He purify them; and they will have a painful punishment.

We have to be sincere

Our role in the Islam victory is not so hard and we can do it easily. Allah says "And they have been commanded no more than this: To worship Allah, offering Him sincere devotion, being true (in faith); to establish regular prayer; and to practice regular charity; and that is the Religion Right and Straight."Muslim's role in this issue is not about making changes or achievements, this is God's role, and we can't say that we've changed or achieved anything, but only Allah who do changes and achievements wherever and whenever he wants, it is all according to his will. However, according to the Holy Quran and Muhammad's quotes, our role is:

To believe in God, righteous deed and sincere creed and intention as "Actions are but by intensions"

"And they have been commanded no more than this: To worship Allah, offering Him sincere devotion" we have to be sincere to Allah in our deeds and religion for everything we do in our lives; in dealings, work, promises, family, social relationships, voluntary work, charity, Zakat, prayer, spending money, relationships with wife/husband and kids, time and prioritizing his tasks wisely.

Priorities of Islamic deeds

The Islamic deeds will not succeed without being built on a correct base which is faith. Islamic deeds are different in type and objective and don't aim to individual or materialistic achievements but to success in the life test in order to reach the ultimate goal which is God's Satisfaction. Since, the first priority in Islamic deeds is faith and it's a requirement and any action would have no value without it, we need to understand the true meaning of faith and practice it honestly and sincerely.

The most important aspect of faith is to believe in Allah, so if our faith is right, our life, thinking and behaviors will change completely in.

If our faith in Allah is sincere and we truly believe in Allah and his ability, then we will be living a very good life that only depends on Allah. In addition, we will accept Allah's blessing and love while we are satisfied and assured.

Faith is the most important quality of the intelligent and enlightened Muslim who knows his role and priorities. Faith is a main requirement to achieve success in your life.
